

It All Adds Up To Cleaner Air

You have a choice to buy a greener, cleaner vehicle, whether it's a car, truck or SUV. If you live in Central Texas and purchased a qualifying 2005 or 2006 vehicle ranked 8, 9 or 10 on the Environmental Protection Agency's Green Vehicle Guide from an Austin Dealership, you are eligible to receive a free **Buy Green, Drive Clean** commuter mug, license plate frame, decal, sun shade and a \$100 City of Austin parking card that can be used at any of the City's 3,700 parking meters.

But act fast. Supplies are limited to the first 200 people who complete the application process. The greener, cleaner vehicles list includes qualifying models of the Honda Civic, Honda Accord, and Ford Focus. The Honda Civic Hybrid, for example, is rated 9 and emits 80% less smog-forming nitrogen oxides (NOx) than other comparable vehicles.

Visit www.cityofaustin.org/airquality for more information about the qualifying vehicles and participating dealerships in Austin, or call 512-482-5341.
